Celebration of Engineering 2022 Invitation

SCDI's Young Engineers and Science Clubs are hosting an exciting Celebration of Engineering; taking place at the King Street Halls on 1 June 2022, and we would be delighted if your company could be part of the day.

We are looking for companies to set the young people a five-minute STEM challenge, ideally, it should focus on a particular engineering or scientific discipline related to your company. Maths, technology and digital challenges are welcome too!

Our experienced team can help co-develop a suitable challenge.

The day is an ideal opportunity to highlight industry opportunities available to the local young people and we hope you will be keen to be involved.
