## Celebration of Engineering 2022 Invitation

SCDI's Young Engineers and Science Clubs are hosting an exciting Celebration of Engineering; taking place at Aberdeen Science Centre on 21 April 2022.

Young people can share their passion and enthusiasm for STEM, showcase their projects and learn more about career opportunities as they compete in a series of fun five-minute STEM (science, technology, engineering and maths) challenges set by industry partners.

Fantastic prizes will be up for grabs!

Thanks to generous support from BP and Shell we are able to support schools to bring along a **team of six** to attend by providing a **contribution to travel costs**.

Register your interest [here](#).
